

# ACKNOWLEDGMENT FORM

By participating in the **King Salman Relief Hackathon: AI for Healthcare in Humanitarian Relief**, all participants agree to adhere to the following rules and regulations:

## Team Structure and Responsibilities

- Each team must consist of **3-5 members** who meet the eligibility criteria outlined during the application process.
  - Teams must designate a **leader** and a **primary spokesperson** who will handle presentations and participate in Q&A sessions with judges or mentors.
- 

## Originality of Submissions

- All submissions must be **original work** and not previously submitted to other competitions or events.
  - Participants certify that their work does not infringe on any existing intellectual property rights.
  - Any third-party resources or tools used in the solution must be properly cited, and the participant must ensure compliance with copyright laws or open licenses.
- 

## Code of Conduct

- Participants must adhere to a strict code of conduct, including:
    - Maintaining ethical behavior and fair collaboration within teams.
    - Treating all participants, mentors, and organizers with respect.
    - Avoiding any form of harassment, misconduct, or disruptive behavior.
  - Any violations may result in immediate disqualification.
- 

## 4. Confidentiality and Intellectual Property

- Participants agree not to disclose sensitive ideas or intellectual property developed during the hackathon without explicit consent from their team members.
  - Intellectual property created during the event is considered team-owned unless otherwise agreed in writing.
-

## 5. Mandatory Attendance

- Teams are required to attend all **key workshops, checkpoints, and final presentations** as scheduled by the organizers.
  - Failure to attend mandatory sessions may result in disqualification.
- 

## 6. Copyright Compliance

- Participants must ensure that all materials, tools, or datasets used in their projects comply with copyright laws or are properly licensed under open-source or public domain agreements.
  - A list of any external resources used must be included in the final submission.
- 

## 7. Submission Format and Deadlines

- All final submissions must follow the format provided by the organizers (e.g., presentations, source code, documentation).
  - Submissions must be completed and submitted by the specified deadline. Late submissions will not be accepted.
- 

## 8. Judging and Appeals

- All decisions made by the judging panel are **final and binding**.
  - Teams may request feedback on their submissions after the event for educational purposes, but judging decisions cannot be appealed.
- 

## 9. Technology Use and Liability

- Teams are responsible for ensuring the functionality and performance of their solutions, including any tools, platforms, or technologies used.
  - Organizers are not liable for any technical failures, lost data, or issues experienced during the hackathon.
- 

## 10. Disqualification

- Teams or participants may be disqualified for:
  - Plagiarism or use of unauthorized materials.
  - Misconduct, unethical behavior, or violations of the code of conduct.
  - Failure to meet submission requirements or deadlines.

## 11. Media and Photography Consent

- By participating, all participants consent to being photographed, filmed, or interviewed during the event, unless prior arrangements have been made to opt out.
  - Media materials may be used by Alfaisal University and King Salman Relief for promotional or reporting purposes.
- 

## 12. Force Majeure Clause

- The organizers reserve the right to cancel, postpone, or modify the hackathon in case of unforeseen circumstances, such as natural disasters, technical failures, or other emergencies.
- 

**By signing below, I acknowledge that I have read, understood, and agreed to comply with the rules and regulations of the King Salman Relief Hackathon: AI in Humanitarian Relief.**
